EASY COAT

Easy Coat is available in 250ml and in 2 versions: matt and glossy.

Easy Coat glossy is a medium, an adhesive, coating, water based varnish, dries transparent and fast.

The matte version is for indoor use, it is not waterproof.

The Glossy is waterproof and perfect for outdoor use after complete drying.

Specially designed for gluing napkins on all surfaces except on plastic: glass, wood, ceramics, cardboard, etc...

Easy Coat is named the best of all napkins glue.

This makes the napkin will not tear or wrinkle and lubricates easily.

Instructions for use:

You need a napkin, a wide flat brush, Easy Coat and a little water to clean the brush after use.

Cover your work area with plastic.

A napkin is composed of several layers.

Carefully remove the upper printed layer. Cut out some parts if necessary.

Coat the surface to be treated with Easy Coat, a thin layer will be sufficient.

Put the napkin carefully on the layer of Easy Coat and spread it open firmly with both hands.

Apply again 1 or 2 layers of Easy coat. Let it dry in between several layers.
